Duma, Severe Fighting by Turks.

LONDON, Sept. 17.—(Associated Press.)—The Russian government is falling back in the direction of Pinks gateway, which was announced yesterday by the German press. Operation by the invasion of this gateway may be expected to facilitate the progress of the Russian army in the Caucasus.

Being the progress of the Russian army in the Caucasus is occupying the attention of the Russian government. The effect of this incident on the military situation is far from clear, as indicated by the proclamation of General Ruzhicki, Russian commander in the north, after the fall of the gateway, that the Russian army will keep the army supplied with munitions.

Although the official reports have been received recently from the Turkish front, the Russian government is still in the dark as to the progress of the Russian army in the Caucasus. The Russian government is still in the dark as to the progress of the Russian army in the Caucasus.

THRILLING HEATS FEATURE RACES AT THE DAWSON FAIR

Immense Crowd is Given
Great Entertainment
on the Track.

SIX HEATS FOR ONE RACE

The 216 Pace is a Hammer. Other
Events Going In Straight Heats.
Final Events on the Program Will
be Run Off During This Afternoon.

With the largest crowd that ever
attended a single day's racing program
of the Dawson Driving Park Association,
the program yesterday was de-
clared by followers of the sport to
have been one of the best they ever
witnessed. Although two of the races
went in straight heats, the 216 pace
required six heats before a decision.
There was some fast stepping, too, the
winner of the second heat taking the
mile in 2:14, exceptional time for a
half mile track.

After Direct Bell, owned by John-
son, had taken the first heat in 2:14,
Jerry S., owned by Jamison, romped
home with the next two, doing them
in 2:14, and 2:14. The pace told
on all the ones, and the following
heats were in much slower time.
P. D. W., of the Vander string, had
second place in the first three heats.
He came to the front and won the
next three, although Jerry S. and
Direct Bell were fighting for the lead
every minute of the time.

The 230 trot was won by Charlie
Watts, of the Jamison string, but Lady
of Lewis, owned by Booth, took the
2:17 trot, both in straight heats.
Royal T., ridden by Jordan, won the
one-mile running race.

The sport was enjoyed by a throng
which jammed the grandstand, the
grandstand and the open space along
the track. There was great enthusi-
asm. The summary follows:

OPEN SEASON TOMORROW

High School Eleven Will Clash with
North Union.
The Conneltsville High School
football team will open its football
season tomorrow afternoon at 3:30
with North Union high school team
as its opponents. The game will be
played at Fayette field and fans will
be glad since the removal of the fence
makes it impossible to control ad-
mission to the park.
Coach H. M. Springer is holding
practice every day and he reports that
some good new material has de-
veloped and the prospects are good for
a strong team. Many of the old stars
have left and it will be necessary to
develop almost an entire new team.
Fullback Smeek is eligible to play
this year but he has not as yet en-
tered school. He will have to enter
by tomorrow to be eligible to play in
Saturday's game.

in Fumed or Golden Oak

What Other Store Ever Made Such an Offer as This

This is not said boastfully, but only to prove our assertion that we can, because of
our method of buying, sell furniture of every kind at the very lowest prices.
We don't merely make claims—we back up these claims by just such ad-
vertisements as this. Here is the best rocker offering ever made by
any firm. It presents a beautifully well-made rocker of finest
material at a price so remarkably low that everyone in need
of a rocker (and who hasn't room for one more?) will
want to take advantage of this special sale.

UPHOLSTERED IN GENUINE LEATHER.

GOLDEN OR FUMED OAK FINISH.

The price of leather having been advancing for some
time makes this offer all the more unusual. This leather
is of finest stock, too, and will last for many years to come.
The seat upholstery is over six heavy resilient springs.
The seat measures 18½ inches deep and 20 inches wide,
while the height of back is 27 inches.

The frame being made of the finest of Oak, part Quar-
tered and part Plain, this rocker is made particularly at-
tractive by both of these finishes, for they show up the
beautiful natural grain of the wood to best advantage.
The finish in either case is excellent, being applied by
skilled finishers who work on only the best furniture.

Rev. J. H. Lamberton of the Metho-
dist Protestant Church in the presence
of members and a few intimate friends
of the two families. The bridal chor-
us from Lohengrin was played by Miss
Laura Taylor of Piquette.

A reception and promptly appointed
wedding dinner followed the ceremony.
Out-of-town guests were: Mrs. A. F.
Smith, C. H. Smith of Lemont; Mrs.

Mary Swink, W. F. Swink, of Break-
neck, and Mrs. Arpha Hoff of Friends-
ville, Md.

NOT A POLITICAL ISSUE.

The Democratic party in county, state and nation is hard put this fall for campaign material. The opposition has it on the run. While the Republic is not the finger of accusation, the Democratic party is powerless to fight with pride to see it things accomplished for the public good.

It is therefore, a tragedy in the eyes of the Democratic party that the Conneltsville News should attempt to make political capital out of the fact that the late Grand Jury refused to approve certain of its improvements in this section of the county by charging that the news is a political organ.

The action taken by the Grand Jury was not a political one. It was a business decision. The Grand Jury is not a political body. It is a body of citizens who are to be trusted to do their duty.

Surprising it is not to be surprised in the proposed meeting of the Grand Jury. It is a body of citizens who are to be trusted to do their duty.

While we are discussing the rights of neutrals with Germany and advocating the freedom of the seas, the British prize courts confiscate the American food products consigned to neutral ports. There is no international law in time of war. The Hague corpus is suspended.

Most Conneltsville coke operators prefer to take this straight.

The voting place has been removed from the City Hall basement because it is infected with vermin. This is a sad reflection upon the superintendent of Public Grounds and Buildings.

Conneltsville is also a macaroni center.

The Good Roads demonstration should keep in the middle of the road and give the gutter politicians the by.

Some people may be good judges of cows and lambs and still be poor judges of politics.

The Conneltsville Industrial exposition will not be as imposing as the Panama Pacific show, but it will be closer at home, and a man won't have to mortgag his home to visit it.

There are some fast ones at the Dawson fair.

Chicago reports too many peaches. The same trouble is apparent around this section on occasions. It is usually reflected in the divorce courts.

The boys and girls are a large part of the Dawson fair.

The Fayette and Westmoreland veterans have the best at their reunion. It wasn't the first hot time they ever had.

September seems bent on supplying all the seasonal deficiency in summer heat.

Senator L. Ham Lewis protests the foreign loan and demands that we keep all our money at home lest we may need it. Yet the Hon. L. Ham Lewis is not like a man who barked in his sock.

The suffrage poll tax is mixing in the time at Dawson.

Typical of the water supply, examined for the domestic consumers, know just where they stand on the water question.

September continues a good growing season.

The labor shortage has reached the H. & O. shops at Conneltsville and undoubtedly it is a source of skilled workmen that is complicated.

The Russian Douma has been talking too much. The Little Father has prescribed a rest.

A fine crop of campaign canards is being harvested.

The on the high railroad line runs directly through a very fertile possible but its own yards which it carefully detours with its trucks.

The lessons of the false weight cannot be learned unless the Dawson fair, it alone with the price of admission.

The fall opening in Conneltsville happened to hit the Grand Jury.

Fall Styles Offer Extraordinary Values

The Union Supply Company is this week offering some very extraordinary values in misses' and women's wear; both ready-made garments, and material for making them. We have very choice lines of new styles in dresses for misses and girls. They are not expensive; they are very attractive and very splendid fitting. For the women we are offering new styles in shirtwaists, skirts, etc., that are very attractive. To the persons who like to make their own clothes, or have a seamstress make them, we invite inspection of our choice line of goods. The early fall novelties which we are now showing are the most attractive goods we have ever had in our stores. At least that is what our women customers tell us, and we feel quite sure that they know. It is not going to cost a great deal of money to get your fall outfit. Prices are very reasonable. Many staple goods are less this year than they have been for many years. We invite inspection.

If You Have a Printing Want WE WANT TO KNOW WHAT IT IS. Putting out good printing is our business, and when we say good printing we don't mean fair, but the best obtainable. If you are "from Missouri" give us a trial and we will Show You.

The Micawbers

Like Dickens's quaint character, too many business men are prone to sit around and "wait for something to turn up." And when it does it not infrequently has the shape and semblance of bankruptcy proceedings. Live business men make things turn up. They assert their right to thrive, and do. They recognize the value of newspaper advertising. They employ it as an effective weapon and grow and prosper.

Except for a weakness for a Jane Adams seems to be a very superior woman. On other side of the road also looks smooth.

TACKLING DUMMY PRESENTED TO THE SCOTSDALE TEAM

W. C. Kelly Gives Valuable
Adjunct to 30 Can-
didates.

TO OPEN WITH CONNELLSVILLE

October Second is Date: Bible Conference Association to Meet Saturday Evening: Little Girl Has Arm Broken by Fall; Other News.

Special to The Courier.
SCOTSDALE, Sept. 17.—There are about 20 candidates busy in football practice under J. C. Waughman of the high school, the hot weather slightly interfering with the real work. Everything looks good for a strong team for the opening game at home with the Conneltsville high school, October 2.

W. C. Kelly has presented a tackling dummy to the squad, and it is being used a great deal, so will doubtless lead to better tackling in the future. The management and squad are grateful to Mr. Kelly for his interest in the squad and the giving of so valuable an adjunct to the training of the team.

The following letter men from last year reported for practice: Carroll, captain; Kelly, manager; J. Miller, Langhrey, Gordon, Lee and Bauer. Also the following members of last year's squad and now candidates: Kennedy, Dale, Knowles, Hill, G. Stuffer, Leaven, Tansh, Dinkhart, Reddick, McVane, Finkler, Small, H. Camlin, W. Camlin, Collins, Piper, Schmeltzer, Hockenhury, and Wilson and D. Catoff of the grade.

TO MEET.
There has been a regular meeting of the Bible Conference Association, at the business, president: John Stuffer, secretary: for Saturday evening, in the Young Men's Christian Association study rooms at 7:30 o'clock. This is the first meeting for the autumn season, and the main topic to be taken up will be the coming here of Rev. W. H. Pike, dean of the Practical Bible School of Bible School Park, New York, who will hold a week's conference on the Presbyterian Church, beginning September 25, and lasting over October 2.

BROKE AN AIM.
Anna Belle Randolph, daughter of Mr. and Mrs. J. Randolph, was playing along the line of improvement along West Pittsburgh street, where bricks are piled, full and broke one wrist on Wednesday evening.

TO MEET.
The Fayette County Fair, Lawson drew the largest crowd of the week from this place on Thursday, a big number of automobiles leaving town about noon for Jackson. The street cars also got a good deal of traffic from this source, while the old-fashioned horse and buggy also came into use, along with the surrey and a few spring wagons belonging to the country folk.

CHURCH SUPPER.
There was a splendid chicken and meat supper served at the United Brethren Church on Thursday evening, which proved popular with a big crowd. Scottdale people are partial to church suppers and usually each church has one supper during the year, and then all the rest turn in and patronize it. The menu was excellent and everything was very nice.

NOTES.
Paul Williams was the winner in the contest for selling the most tickets to the Paxton Play lecture, which Evangelist John W. Minges closed his Christian Church tabernacle on in this place. Paul received a handsome Bible for his work. The evangelists have come to Mason City Iowa.

Mrs. Charles M. Berkey is visiting with friends in Pittsburgh and Cleveland.
Miss Lydia Porter of Chestnut street has been visiting relatives in Frothingham, Md. for a few days.
Mr. and Mrs. J. Ward Elcher and children, Elizabeth and Roland, Washington, D. C., Miss Helen Elcher of Greensburg, Mrs. John Elcher of Standard, Mrs. Anna Miller and daughter, Ethel, of Mount Pleasant, spent Saturday at home, and Mrs. L. E. Hixon of Mount Nebo.

Among the Scottdale people who attended the Scotch reunion were Mr. and Mrs. D. P. Hixon and children, and Lehigh Lehighy.

British Selva Prices.
LONDON, Sept. 16.—The British price court today condemned the greater part of the American products forming the cargo of four steamers. The products, valued at several millions, are declared forfeited to the crown.

Thin Men and Women

Do You Want to Get Fat
and be Strong?

The trouble with most thin folks who wish to gain weight is that they insist on digesting their stomach or stuffing it with greasy foods; rubbing on useless "flesh cream"; or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract properly assimilates the food you eat.

There is a preparation known to reliable doctors almost everywhere, which scientifically embodies the elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This preparation is called Sargol and much remarkable testimony is given to its successful use in flesh building. Sargol, which comes in the form of a small non-indurated tablet, taken at

For a Weak Stomach.
There are people thick in this vicinity who find it necessary to be very careful about what they eat as they have weak stomachs. Many of them would be very much benefited by the same treatment that cured Mrs. Ernest Pharo of Beaver Dam, Ohio, who writes, "I had a weak stomach and for years certain food disagreed with me. I would feel uncomfortable hours after eating. I lost weight and became debilitated. Then I began taking Chamberlain's Tablets and the result was such that I feel better and my family. They strengthened my digestion and in a short time I was sound and well." For sale by all dealers.—Adv.

Large Cement Production.
The Geological Survey's annual statement on the cement industry for 1914 is now being distributed. During the year 87,257,552 barrels of the principal hydraulic cements were produced, with a value of \$40,523,292. The map accompanying the report shows the distribution of the principal cement plants and outlines the Portland cement commercial districts.

Primary Election Announcements.

For County Commissioner Of Fayette County,

HUSTON S. WILLIAMS.

The office of county commissioner is one of the most important to the taxpayers of Fayette county. The office should be filled with men who not only know the needs of the people but also know how to safeguard the public treasury. The people of Fayette county are progressive and enterprising, but they are entitled to a careful, economical and business-like administration of their affairs. I am a native taxpayer of Fayette county a clean, honest and efficient administration. This is my only pledge. Yours truly, HUSTON S. WILLIAMS, Fairchance, Pa., September 16, 1915.

I am heartily in favor of improved

public roads and in favor of giving each section and district of the county its fair share of county support. All taxpayers are entitled to equal and fair treatment and will receive it at my hands in case of my nomination and election.

FURNACES SHOW A GOOD GAIN DURING MONTH OF AUGUST

Largest Number of Stacks are Blowing Since September, 1912.

STEEL WORKS PLANTS LEADS

Their Gains Over July Greater Than Merchant Stacks, but Latter Show a Material Increase; Output is at Rate of 35,000,000 Tons Weekly.

With the largest number of stacks blowing since September, 1913, and the largest output since May, 1913, the coke and anthracite pig iron production of the country in August reached a total of 2,774,225 tons, says the Cleveland Iron Trade Review. This total production in August was at the yearly rate of 35,000,000 tons, which compares with the yearly rate of 24,000,000 tons in August last year.

The total output in August, 2,774,225 tons, was 11,514 tons greater than July, which produced 2,659,111 tons. The August output showed a gain of 1,279,509 tons over the production in December, 1914, or a gain of 85 per cent. It also was a gain of 77,312 tons over August, 1914, or an increase of 30 per cent. The average daily production in August, 1915, was 89,519 tons as against 82,637 tons in July, a gain of 6,882 tons in August.

The steel works furnaces supplied two-thirds of the increase in the August production, for in August they made 2,094,184 tons compared with 1,946,415 tons in July, an increase in August of 147,769 tons. Yet the merchant furnaces also made a gain in output, their August total production being 679,041 tons compared with 712,696 tons in July, or a gain in August of 33,555 tons. The steel works furnaces in August had a daily average output of 67,067 tons, a gain of 1,672 tons over their average in July, when they produced at the daily rate of 65,395 tons. The merchant furnaces in August gained slightly also, in daily rate, which was 21,931 tons, a gain of 1,528 tons over July when their average was 20,403 tons.

The production of spiegel in August was 12,367 tons compared with 10,605 tons in July, a gain in August of 1,762 tons. The output of ferro in August was 18,967 tons compared with 11,549 tons in July, or a gain in August of 7,418 tons.

The total active stacks on the last day of August were 216, a net gain of 12 to the active list of July, when 204 stacks were active. Again the steel works furnaces showed a statistical gain for, while five merchant furnaces blew out, ten merchant stacks to the active list, yet only two steel works stacks blew out and nine blew in, making a net gain of seven active stacks in the steel works division.

GOOD ADVICE FOR NERVOUS PEOPLE

What Worn, Frazzled, Unstrung "Jumpy" Nerves Really Need.

When you are run down, out of sorts, the easily, have lost confidence in your ability to do things, and ambition seems to have deserted you, it's a sure sign your nerve force has run down and that your nerves need a stimulant to restore to your system its old-time strength and energy, and bring back the good old pep that used to make you famous.

The Leachery Drug Company and many others of the leading drug stores in Connelldale and vicinity, are selling a wonderful nerve remedy called Margo on a positive guarantee of satisfaction or money back. It's amazing how quickly these Margo tablets tone up the entire system, calm and steady the nerves, and put vim, vigor and vitality into men and women who are fatigued out, nervous, despondent and ambitious.

Thousands testify to their remarkable value in cases of severe mental depression, nervous prostration, nervous dyspepsia, "jumps," "diggers," and the generally unstrung nerves that come from excessive work, worry, lack of sleep, or overindulgence in drinking, eating, or smoking. They never fail to benefit. If you are blue and feel as though you didn't give a hang, or are cross, irritable, and your nerves are right on edge, get a package of Margo. Right away. They take 40 tablets to a box. Eat one with every meal for a few days, and see what a wonderful improvement they make in your whole nervous system. —Adv.

PLENTY OF ORE IS IN SIGHT FOR THE NEEDS THIS WINTER

Danger of a Famine Declared Too Remote for Serious Consideration.

SOME STATISTICS ARE GIVEN

Heavy Tonnage May Yet be Hauled Down Before Navigation Closes. Stocks in Reserve are Large, and Bulk Shipments Would Cut Figure.

Statements are being made in some quarters that the danger of a famine due to shortage this winter, and in support of the contention the claim is made that if ore shipments from the Lake Superior region from September 1st to the end of the season were at the record rate the total would still be only 11,000,000 tons for the season, says the American Metal Market. While there is room for a rejoinder that 11,000,000 tons movement might prove sufficient, after all there is no occasion to discuss that matter, because the contention on which the 11,000,000 tons is based is incorrect.

In looking for the maximum quantity of ore shipped from the Lake Superior region after September 1st a careful person might conclude that the shipments made in that period of the record year, but there were two years which showed larger shipments for the period, although the totals for those years were under the record. These are the figures, referring only to shipments down the lake and excluding the all-rail shipments:

Year	After Sept. 1	Season Total
1907	10,000,000	12,000,000
1912	10,000,000	12,000,000
1913	10,000,000	12,000,000

This while 1913 showed record shipments for a season, there were two other years that showed larger shipments from September 1st to the close. Through all the history of Lake Superior ore shipments there have been three divergences. These have been seasons in which shipments were kept up at full pressure through the shipping season. As a rule a season begins poorly and ends well or begins well and ends poorly.

This year's ore shipments to September 1st was 28,864,420 tons. Adding to this the shipments in the record year, 1913, for the remaining months, gives 12,800,000 tons, but that means nothing, for the contention is that it is not absolutely possible to move enough ore in the remainder of the season to make a total of more than 11,000,000 tons, and one is entitled to say that, showing that has been made. If that showing was made less than 40 years ago, shipping facilities, the season from year to year, and if a certain tonnage was moved in 1905, still more could be moved this year. Adding the shipments after September 1, 1905, to the shipments made to the beginning of this month gives 12,800,000 tons, or nearly 20 million tons in excess of the 11,000,000 ton claim. If one is needed, the season's total is based, to be above rather than below, this amount.

On Sept. 1, 1915, amounted to 6,992,704 tons, the largest reported for the date since 1911. If that is not so that can be made into pig iron, to avert a famine, we do not understand what it is. There is no use talking of the being the wrong thing for the mix, because if there is danger of an ore famine those who manage the ore movement surely have intellectual capacity sufficient to arrange to bring ore down the remainder of this season such as will mix with the ore already shipped. Then there are very large stocks of ore at furnaces. We have heard various estimates, none of them as low as 10,000,000 tons. Why all this fuss over? This is not a question. It is a question that has been asked in executive offices for more than a year, and a result that many companies have resolved to decrease their stocks. At one time it was thought desirable to maintain large ore stocks, against possible labor troubles in the mining regions, but that danger has largely disappeared. We do not care whether it has or not, however, for there are not going to be ore stocks kept on stock or in furnace yards next winter, against any danger of labor troubles in future, if there is a famine in pig iron at the moment.

In pointing out, as we endeavor to do, not only the impossibility of an ore famine this winter, but the childishness of any contention that there is such a danger, one is entitled to count 6,992,704 tons of ore on Lake
